About me

As an SEO specialist with one year of experience, I am seeking a new opportunity to transition into a junior frontend developer role. I am currently intensively developing my skills in React and Next.js, but I am always open to learning new technologies. I am passionate about developing my skills and willing to work hard to achieve my goals. With a strong work ethic and dedication to continuous learning, I am confident that I can make a valuable contribution to any team.

Competencies

javascript (12 months)

react (8 months)

next.js (6 months)

typescript (2 months)

css (1 year 4 months)

html (1 year 4 months)

css modules (8 months)

redux-toolkit

graphql

react-hooks

Experience

Kerris Group
SEO Specialist

09.2022 – Present

Conducting audits of the websites, identifying areas of improvement, and creating a tailored SEO strategy that aligns with the client's goals. I also collaborate with various people, including web developers, content writers, and social media managers, to ensure that the SEO strategy is effectively integrated across all online channels.

Grupa iCEA
Junior SEO Specialist

06-09.2022

I played a key role in supporting the SEO team in implementing and optimizing SEO strategies for clients.

NPROFIT
Junior SEO Specialist

Projects

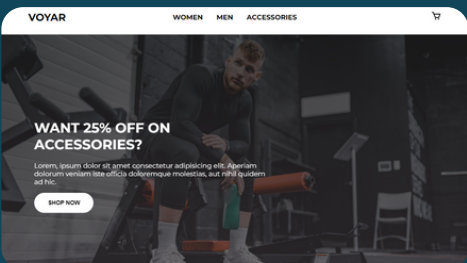

Hynext - modern blog app

[GitHub](#) [Live demo](#)

The project is a web application that functions as a blog, created using the Next.js framework with Hygraph content management system. The graphql-request library was used to communicate between the application and the hygraph tool

Next.js, React, CSS modules, ES6+, graphql-request, hygraph

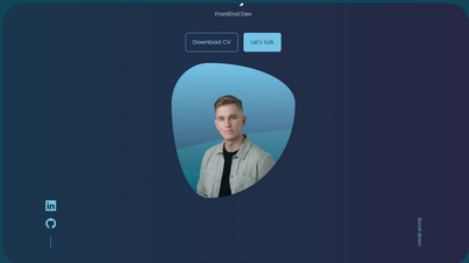

Voyar - Next.js Ecommerce

[GitHub](#) [Live demo](#)

This project is an ecommerce store built in Next.js using strapi as headless cms. Redux for state management and stripe for payment processing. Formik and yup library was used for form validation.

Next.js, React, Redux, redux-toolkit, formik, CSS modules, Strapi, Stripe,

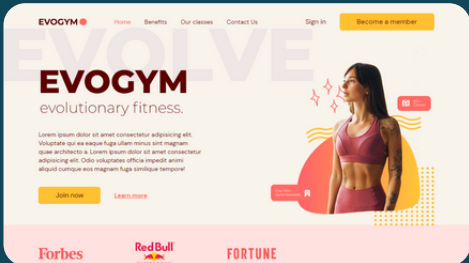

React - modern portfolio app

[GitHub](#) [Live demo](#)

A project designed for simple management of your portfolio. The website can be updated with new projects and achievements without requiring extensive changes to the underlying codebase.

React, email.js, CSS, react-scroll

TypeScript - React app

[GitHub](#) [Live demo](#)

I started this project to improve my skills in building applications with React and TypeScript. In addition, the idea was to practice using tailwind, which is becoming an increasingly used library for creating styles.

TypeScript, React, Vite, Tailwind, Hero Icons, Framer Motion
